

Dear Michelle,

This is to report to you the additional methods used to collect employer and occupation information for itemized donors.

Each donor receives a letter asking just for this information with a return form and a stamped return envelope.

Usually, these return quickly. If not, a second letter, just like the first is sent, as well as phone calls or emails if possible.

All of the outstanding employer/occupation issues on the report just amended for the period ending June 30 have been resolved and were reported in the amendment. The 12 donors from the report ending March 31 are still outstanding. However, I have been in contact by phone and email with the host of the event that brought in these donations - Dr. Hardam Azad. Dr. Azad has agreed to help get this information for me as soon as possible (he still does not have electricity due to Hurricane Ike).

As this information comes in I will report to you. If it does not arrive in a timely enough manner, please let me know what you believe the best course of action is to remain compliant. If you would like the campaign to return these contributions, that will be done immediately. We strive to be completely compliant to all the regulations over the finance system and will do whatever asked to do that.

Thank you for your time and attention!

Jennifer Naedler

Treasurer
